INTRODUCTION

In the middle of a vast and endless desert, a lone tent can sometimes be found on clear and moonless nights. Sheltered from the howls of the icy desert winds, a night full of mystery and gambling may now begin. The border between reality and dream slowly starts to blur as the image of a cryptic eye grows clearer deep within your mind.

In Medallion, you will come face to face with varying features from the outer rims of existence on a 6x6 reel with up to 46,656 MEGAWAYS™! The first feature is the Avalanche feature that is always active throughout the whole game. Whenever a win is formed the winning symbols will get ripped from existence while new symbols are summoned from the beyond. Each consecutive Avalanche tumble will add to a building avalanche multiplier. The rest of the features are tied to the appearance of the titular Medallion who can appear after any base game spin.

When the entity, simply known as the Medallion, appears it will start changing the laws of reality making different features appear or disappear wherever its gaze fall. These are the feature that it can grant;

Expanding Wilds - Wilds may start to expand charged to the brim otherworldly power manifesting as channeled into lucrative multipliers.

Void Respin - An enigmatic green stone may land in the reel, sucking non-winning non-wild symbols into the void, triggering an Avalanche tumble.

Free Spins - The Medallion fully manifested shattering your reality into pieces in the prosses, granting 10 Free Spins with cumulative Avalanche multiplier.

So come and play of now you dare! The riches of the great beyond knows no bound, may the Medallion's eye show you the way.

GAME RULES

-REEL RULES-

The game is a 6-reel and 6-row video slot.

The game features Wild symbols, Void Respin symbols, and 10 other symbols that can appear in three different sizes: 1x1, 1x2, and 1x3.

Size of a symbol can only vary in height, but not in width.

The value or effect of a symbol stays the same regardless of the symbol's size.

-WILD RULES-

The Wild symbol can appear anywhere on reels 2-5 and substitute for all symbols except for the Void Respin symbol.

Wild symbol substitutions pay the highest possible winning combination on a MEGAWAYS™ according to the Paytable.

-FEATURE ACTIVATION RULES-

The Medallion can appear at the end of any base game spin. Appearing as a spinning coin, it can activate or deactivate Feature Stones and their corresponding features. Landing on the gold side, the Medallion activates one or more Feature Stones and their corresponding features. Activating the Free Spins Stone activates the Free Spins. Landing on the silver side, the Medallion de-activates one or more Feature Stones and their corresponding features. If activated, the Free Spins start immediately. The Expanding Wild and the Void Respin are applied starting from the next spin. When the Free Spins end, the Expanding Wild and the Void Respin features remain activated.

-FEATURE RULES-

The game's features, if eligible, have the following resolving priority:

1. All Wild symbols expand.
2. All Void Respin symbols are activated.
3. Avalanche is activated.
4. Medallion appears.

A feature with higher priority always resolves before a feature with lower priority.

GAME RULES

-EXPANDING WILDS-

When the Wild Stone is activated, all Wild symbols landing on the reels expand to cover the entire reel, substitute for any symbol and award a random Wild multiplier between x2 and x6 to the winning combination they are part of. Wild multipliers on different Wild symbols on the same MEGAWAYS™ multiply each other.

-VOID RESPIN-

When the Respin Stone is activated, if a Void Respin symbol appears on the reels, a random number of symbols between 2 and 10, including the Void Respin symbol, are removed, and new symbols fall down. Wild symbols and symbols that are part of a winning combination cannot be removed. If a symbol is replaced with a Wild symbol, the Wild symbol will expand to cover the entire reel. If a symbol is replaced with a Void Respin symbol, the Void Respin feature will be re-activated. The replacement symbols will always be of the same size as the replaced symbols.

-AVALANCHE-

In this feature, the symbols in winning combinations disappear, new symbols then fall down creating additional win opportunities. If the new symbols result in a new winning combination, the win is multiplied by the Avalanche multiplier. The Avalanche multiplier starts at x2 and with each consecutive Avalanche, the Avalanche multiplier increases by 1. There is no upper limit to the Avalanche multiplier.

-FREE SPINS-

The Free Spins are activated when the Medallion activates the Free Spins Stone. 10 Free Spins are awarded. Both the Expanding Wild and the Void Respin features are activated during the Free Spins. The Avalanche multiplier does not reset between spins during the Free Spins. The Free Spins can not be reactivated. When the Free Spins end, the Expanding Wild and the Void Respin features remain activated.
