#### A.1.6. Description of Games

##### 1. Aladdin's RollOver Respins

"Aladdin's Rollover Respins" is a 3 row by 5 reel all scatters game featuring freespins, respins and increasing multiplier reel incrementors.

'Wild Lamp'

Any win with at least one lamp contributing toward the win triggers the Rollover Respins Feature.

When a full sticky column containing a Lamp is created during the rollover respins feature, the column will turn into a Genie indicating a Genie reel rollover will be awarded as soon as a non sticky respin occurs or when the entire screen is sticky.

A Genie reel rollover will double or triple the amount of the current multiplier. When multiple reels rollover simultaneously, regular reel rollovers are first added to current multiplier before doubling or tripling the multiplier from the Genie reel rollover.

#### 'Sticky Scatter Pays'

When 5 or more of the same symbols land on a single spin including at least one wild [lamp], these symbols will stick and activate the rollover respins feature. The counter dynamically appears and keeps track of how many of each symbol have been stuck to the reels. It is possible to activate the counter on more than one normal symbol if 5 of two different symbols land anywhere on the reels on the initial same spin including at least one wild [lamp] contributing to the win. Additional symbols can also be activated by getting 5 of the same non activated symbol on any respin as well without needing another lamp to be part of the 5 or more win.

The multiplier increases by +3 for each full sticky column of 3 of all high symbols. Any Genie columns will then double or triple the multiplier for each Genie column. Columns then shift over to the leftmost positions to make space for new columns to replace the full ones. If any of the replacement columns contain a symbol matching any of the activated sticky symbols, then those symbols will also stick, increasing the corresponding symbol counters and continuing the respins to try to get more sticky symbols for more respins and full stick columns for multipliers and more replacement columns. If no replacement columns reveal a matching activated symbol, the spin ends and pays are evaluated with the multiplier as described above. Full columns will continue to increase the multiplier up to a maximum of 50x.

#### 'Free Spins Accumulation'

During the initial base game spin and all respins, free spins scatter symbols are accumulated and the free spins is awarded if through the duration of respins 3 or more scatter symbols land in total. 3, 4, 6, or 8 free spins are awarded for landing at least 3, 6, 9, or 12 scatter symbols respectively. Landing more than 12 scatter symbols has no extra effect other than awarding the maximum of 8 free spins at the end of the respins.

Scatter accumulation is reset to zero at the end of each spin.

#### 'Free Spins'

After triggering the free spins with 3 or more scatters, the player is awarded free spins equal to the corresponding number displayed above. Before starting the free spins, the player picks one of the 15 boxes displayed to reveal a symbol. This symbol revealed requires only 3 or more symbols to stick and trigger the rollover respins. Furthermore, a Lamp is no longer required to trigger the respins and multiplier accumulation does not reset for the entire duration of the free spins. The maximum number of respins cap is 100 for each free spin.

#### 'Buy Free Spins'

Choose the stake of the bonus and press Buy button to confirm a bet of 63x stake and automatically trigger the free spins.

## 2. Armadillo Does Christmas

"Armadillo Does Christmas" is a 4 row by 5 reel 25 lines game paying left to right featuring a variety of random feature a party spin bonus and a trail bonus with collections and a top prizepot.

#### 'Instant Win'

At the beginning of each spin, there is a chance of triggering the following features before the reels stop spinning:

- Random Wilds - Random positions on the reels are substituted with wild symbols. From 1 to 4 wilds can be awarded with each trigger.

- Wild Reel - Every position on Randomly selected Reels are substituted with wild symbols. From 1 to 3 wilds can be awarded with each trigger.

Colossal Reels - Randomly selected adjacent reels will fuse together. The fused reels spin larger images on the reels. Every position that the larger image occupies counts as an individual 1x1 symbol on the reels for determining wins on the lines after the reels stop. Fused reels range from creating 2x2, 3x3, or 4x4 big symbols during the feature.

- Random Multiplier - A random multiplier of 2x, 3x, 4x, or 5x is displayed at beginning of the spin and applies to all line wins.

Furthermore, after each reel spin the following features may also be triggered

- Symbol Upgrade - All of a lower symbol chosen at random that is visible on the reels are upgraded to a

randomly selected higher paying symbol. The number of symbols upgraded equals the number of the lower symbol chosen that are on the reels. For example, if the lower symbol chosen is the spade, and there are 4 spades on the screen, 4 symbols are upgraded.

- Instant Win - Awards a random credit amount from 1x to 200x

#### 'Trail Bonus Collections'

The collected boosters and feature is specific to each bet level and changing the bet will restore the previously stored symbols in the trail bonus collections meter.

During the base game special symbols are collected to enhance the trail bonus as follows:

**Hearts** - Every 4 hearts collected during the base game on a bet level accumulates an extra heart. A maximum of 3 hearts can be collected per bet level. If the Armadillo lands on an ice hole to fall into the water, a heart is used up and the Armadillo will continue the bonus. If the Armadillo lands on a hole in the ice and falls with no hearts remaining the bonus ends.

**Christmas tree and presents** - Christmas presents collected increases the pay when landing on a Christmas tree in the trail bonus. If no presents have been collected when entering the trail bonus, landing on the Christmas tree awards 10x when the armadillo lands on it. For each present collected at a bet level during the base game, this initial 10x win amount is increase by an additional 5x bet award up to a maximum total of 60x award for landing on the tree after 10 or more presents are collected.

**Christmas Stocking and Candy Canes** - Every 4 Candy Canes collected increases a multiplier applied to the [Christmas stocking) award. The multiplier starts at 1x and is capped at 5x after 16 or more candy canes symbols are collected for the stocking in the base game for the current bet level. After awarding the stocking with all the candy canes inside the candy canes collected are reset to 0 and the multiplier is thus reset back to 1x. The max amount of candy cane symbols that can be collected at each bet level before resetting is 16. As each candy cane symbol collects 0.25 of a candy cane multiplier, collecting 16 or more candy canes caps the max multiplier of the stocking at 5x.

**Super Skis** - One of the spaces on the trail bonus is occupied with super skis, which collects the awards of all coins the armadillo passes by at a 1x multiplier. Collecting super skis in the base game before triggering the trail bonus increases this multiplier by 1x, up to a maximum of 4x multiplier after collecting 3 or more super skis in the base game before triggering the bonus. This multiplier is applied to the sum of the coin wins the

armadillo passes through. After landing on the super skis during the trail bonus, the super skis multiplier is reset to 1x. The max amount of skis collected for each bet level is capped at 3, thus collecting more than 3 skis will not have an effect on the multiplier when it is maxed at 4x.

#### 'Trail Bonus'

3 triggers the trail bonus. There are three different trial bonus board map configurations. When starting the bonus one of the three board maps are chosen randomly with equal odds. The positions of the items on each board map are different, and the 2000x prizepot is at the end of the map for all three options.

#### 'Instant Win'

Awards a random credit amount from 1x to 200x.

### 3. Blue Diamond Book

The paylines are evaluated from left-to-right on adjacent reels starting on leftmost reel, according to the payable.

#### 'Scatter Wild Symbol'

The Blue Diamond Book symbol is the Scatter symbol and acts as a wild. Substitutes for any symbol. Whenever 3 scatters land anywhere on the reel set, the game awards 10 free spins and the player is taken to the Free Spins Mode.

#### 'Freespins'

The Scatter functions differently in the free spins feature, as follows. Before the free spins start, one of the nine regular symbols will be randomly selected to be the special symbol. All reels can contain a single Scatter Wild. The reels spin as normal (with the Scatter acting as a substituting wild), and the pay lines are evaluated and wins paid. Then, if sufficient Special Symbols are visible, each one will expand vertically to cover their entire reel. 'Sufficient special symbols' means at least two of the selected special symbol for high paying symbols and at least three of the selected special symbol for low paying symbols.

At the same time, should any Scatters be visible on the reels, they also will expand vertically to cover their entire reel, whereupon the Scatter will then reveal itself to be either a 1x, 2x or 3x win multiplier (applies per

expanded reel, not per symbol). When any one special expanding symbol appears along with a wild symbol then the wild symbol will expand and substitute for that special expanding symbol. The resultant panel shall then be evaluated for any scatter wins featuring the special symbol only (both standard and transformed Scatter versions) and paid, taking into account any Scatter win multipliers. If the special symbol is Lara Jones (H1) and two Lara Jones (H1) symbols are on the screen and, additionally, at the same time there are THREE reels containing the Scatter Wild symbol, then the wild multiplier always equals 3. It is not possible to re-trigger freespins.

-Hearts - Every 4 hearts collected during the base game on a bet level accumulates an extra heart. A maximum of 3 hearts can be collected per bet level. If the Vampire lands on an RIP tombstone, a heart is used up and the Vampire will continue the bonus. If the Vampire lands on an RIP tombstone with no hearts remaining the bonus ends.

-Gargoyle and candles - Candles collected increases the pay when landing on a gargoyle in the trail bonus. If no candles have been collected when entering the trail bonus, landing on the gargoyle awards 10x when the Vampire lands on it. The multiplier starts at 1x and is capped at 5x after 16 or more dog bone symbols are collected for the zombie dog collection in the base game for the current bet level. After awarding the zombie dog with all the dog bones the dog bones collected are reset to 0 and the multiplier is thus reset back to 1x. The max amount of dog bone symbols that can be collected at each bet level before resetting is 16. As each dog bone symbol collects 0.25 of a dog bone multiplier, collecting 16 or more dog bone symbols caps the max multiplier of the zombie dog at 5x.

-Super potion-One of the spaces on the trail bonus is occupied with a super potion, which collects the awards of all coins the Vampire passes by at a 1x multiplier. Collecting super potions in the base game before triggering the trail bonus increases this multiplier by 1x, up to a maximum of 4x multiplier after collecting 3 or more super potions in the base game before triggering the bonus. This multiplier is applied to the sum of the coin wins the Vampire flies through. After landing on the super potion during the trail bonus, the super potion multiplier is reset to 1x. The max amount of potions collected for each bet level is capped at 3, thus collecting more than 3 potions will not have an effect on the multiplier when it is maxed at 4x.

During the trail bonus our Vampire begins at the start of a game board with a trail of spaces each with an award, feature, or RIP Tombstones. A random number from 1 to 6 is displayed indicating the number of spaces the Vampire moves rightward, landing on the spaces on the trail again and again like in a board game. After each random move from 1 to 6, the player is given the item on the space landed. This process continues until the player lands on a RIP Tombstone with 0 hearts remaining. Alternatively, if the player makes it to the end of the trail, there is a prizepot award of: 2000x which will be awarded while simultaneously simulating the ending bonus. The Vampire begins with the number of hearts collected before entering the trail bonus. Furthermore, the award amounts of the gargoyle spaces and the zombie dog spaces depend on the amount of the items collected in the base game.

#### 'Scatter Coin Prizes'

Scatter Coins show prize amounts visible when landing on the reels. In addition to the multiplier ranges on the multiplier wheel, some multipliers on the wheel have a coin background. If a multiplier wheel lands on a multiplier with a coin background, the player will be awarded the sum of all scatter coin prize amounts on the reels, including any prizepots. If more than one exotic wild lands, it is possible to win the sum of all scatter coin prize amounts on the reels more than once as each multiplier that lands with a coin background awards the sum of all scatter coin prizes on the reels. Scatter Coin Prizes can be won in the base game, the multiplier boost free spins and the Extreme Exotic free spins only.

Prize amounts contain:

Awards of 1x, 2x, 3x, 5x, 7x, 10x, and 15x

Mini Prizepot 20x

Minor Prizepot: 50x

Major Prizepot 100x

Mega Prizepot 250x

Grand Prizepot 1000x
