## SUPERSTAR FEATURE

The Superstar feature can be randomly activated at the start of any Base Game spin. Only one Superstar feature can be activated simultaneously. When the Superstar feature is activated, the Superstar symbol is randomly placed at a random position on reels 2-4.

The Superstar symbol is a sticky Wild symbol with an increasing all-win multiplier.

The Superstar symbol is sticky between rounds. It has 3 charges and remains in its position on the reels as long as it has a charge left.

A non-winning round takes away one charge. Winning rounds do not take away charges.

The increasing all-win multiplier starts at x1. Each Wild symbol landing on the reels during the Superstar feature increases the all-win multiplier by 1.

## FREE SPINS

3 Bonus Scatter symbols collected in a game round activate 10 Free Spins. The number of Bonus Scatter symbols collected is displayed on the Bonus Meter.

The Superstar feature and the increasing all-win multiplier are activated in the Free Spins.

The Superstar symbol in the Free Spins is a moving Wild symbol that has no charge.

It appears on the reels at the start of the Free Spins and remains on the reels until the end of the Free Spins.

The Superstar symbol in the Free Spins can only appear on reels 2-4 and moves to a new position after each Free Spin.

The increasing all-win multiplier starts at x1. Each Wild symbol landing on the reels during the Free Spins increases the multiplier by 1.

3 Bonus Scatter symbols collected during one Free Spin activate 10 additional Free Spins.
