MANA MANIA

Collecting Mana

- Yellow, Red, Blue, and Green characters collect mana when they win with symbols of their matching color. They also get mana from the Diamond symbol, which gives mana to all four characters.
- When a character has enough mana and appears on the top reel, it casts a spell using all its mana. More mana makes the spell stronger!
- Mana is tracked separately for each bet level, so changing the bet level also changes the characters' mana levels.

MANA MANIA

Character Collections

- Casting a spell costs all the mana collected by the character on the top reel.
- To cast a spell, the character needs at least one full mana level of their color.
- When the character casts a spell, all their mana is used, they disappear, and new symbols fall down to take their place.
- Mana collection is tracked separately for each bet level. When switching levels, the characters' accumulated amounts adjust to match the specific bet level.
